COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

WEATHER KEY POINTS

04/07/22 - 04/13/22

Thursday - Friday

- Dry weather and unseasonably warm temperatures will persist across much of the state today and Friday
 - Record-setting high temperatures are likely as daytime readings warm well into the 80s and 90s, even for many coastal locations
 - Heat Advisories are in effect for Thursday and Friday along and near the southern California coast
 - Widespread low to moderate heat impacts are expected, with localized areas of high heat impacts in near coastal areas of Southern region Thursday
- Gusty offshore winds of 30 to locally 50 mph will continue across the southern California mountains through Friday, bringing locally elevated fire weather conditions

Saturday - Wednesday

- Temperatures will see a gradual cooling trend for the weekend and into early next week, with some light precipitation possible at times for much of the state late Sunday through Tuesday.
- Gusty north winds will develop across portions of the Sacramento and San Joaquin Valleys Saturday and Sunday, with gusts of 30 to locally 45+ mph
- Strong west winds are expected in the southern California mountains, deserts, and over the coastal waters as well as the Sierra this weekend and into early next week. Peak winds of 40 to 60 mph, with local gusts up to 75 mph are possible at times. Winds are currently expected to peak in strength Monday night into Tuesday morning.

PRECIPITATION FORECAST

04/07/22 - 04/09/22

No precipitation is expected through Saturday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)
